Host a 99 Spoons Soft Serve Kiosk

At 99 Spoons we are looking to establish partnerships with every high foot traffic location in North America that wants to offer customers a delicious, affordable soft-serve treat with multiple toppings options, served by a little robot, and in 45 seconds or less.

We have a generous profit sharing commission program that consists of a net profit share, or monthly floor space rental which allows everyone to win.

5 simple steps to set up

1.

Plug in the 99 Spoons Kiosk
(standard 110v/60hz power supply)

2.

Pour in soft-serve liquid

3.

Fill up the three toppings
and three hot sauce canisters

4.

Place the cups and spoons
in the appropriate holders

5.

Turn on the kiosk
and start making sales!

How It Works

Requesting and receiving a robotic soft-serve kiosk is simple. Here's the process.

- Contact us by visiting www.99spoons.com/hostakiosk
- We will contact you within 24-hours to set up a call.
- If your location qualifies and we, or one of our partners has the ability to service your area then we will send you a copy of our location agreement so you can reserve a kiosk.
- Once the agreement is signed and prior to installation one of our friendly representatives will visit your location with a checklist to make sure you have everything we need.
- On installation day we will need 2-3 hours to make sure everything is in perfect order for us to begin operating.
- If possible we would love to launch the kiosk with a small event.

What do we need from you?

- 10 square feet of floor space
- Access to a dedicated 110/25V Power Supply.
- 3-compartment sink for cleaning purposes. If not, we will use a portable sanitizing cleaning cart.

F.A.Q

How Big Is The Robotic Soft Serve Kiosk?

Our soft-serve kiosk's Dimensions are H75.6" x W38.6" x D35.4"

Do I Need To Do Any Upgrades?

No, our soft-serve kiosks will only require one standard 110V electrical plug in. The kiosk is entirely self-contained and does not require any plumbing.

Are The Kiosks Certified?

The Kiosks are Intertek & NSF Certified.

How Much Money Will Come Back To My Location?

We generally offer a share of gross revenue to most locations however some locations are more interested in renting their floorspace to us. We are open to both. We also love working with locations that are open to subsidy programs (generally wellness initiatives) for employees.

What If There Is A Problem With The Kiosk?

Our kiosks feature cloud based remote monitoring software that notifies us immediately if any issues arise. When this happens the owner of the kiosk will quickly respond to the issue. We also provide direct contact info on every kiosk for your customers to contact the owner in the event of an issue.

Do You Need To Use Any Of Our Facilities?

Although it is not required, if you do have a 3-compartment sink on site we would love to use it, so we can keep the kiosk sanitized and adhere to health and safety standards mandated by the local health department.

What Do I Need To Do As A Location?

You and your staff have no ongoing responsibilities. The kiosk owner will check on the kiosk as often as necessary and will handle all cleaning and maintenance of the kiosk.
